

PROFESSIONAL PROJECTS

Full project list at jerrytron.com/projects

“Unannounced escape room” for [Meridian Adventure Co.](#)

Game Designer / Embedded System Developer (team of ~6)

Assisted in finalizing / mapping the narrative experience to the emotional, interactive, & spatial aspects of the player journey. Researched, designed, & implemented an embedded systems network for reactive props & game automation.

Portland, OR
2019 - Present

“Alice in Puzzleland” for [Escape Hunt](#)

Game, Puzzle, & Narrative Designer (team of 2)

Created an original 190 page escape room design inspired by *Alice in Wonderland*, covering all tech & creative aspects.

Remote Work
2018

“Utopia Room” for [Riddle Room](#)

Game, Puzzle, & Narrative Designer / Embedded System Developer (team of 2)

Designed & installed a high-tech, award-winning, dystopian escape room; runs autonomously & features three endings.

Minneapolis, MN
2017

“Dyscourse” & **“Indie Island DLC”** for [Owlchemy Labs](#)

Writer (writing team of 2)

Designed complex narrative threads & backstories. Contributed significantly to the 80k words of dialogue & structure.

Remote Work
2014 - 2015

“MysteryPhone” for [Northern Spark](#)

Narrative Designer & Developer (team of 3)

Awarded a \$16k grant. Designed and implemented a cross-platform (iOS, Android) interactive narrative game unlocked by walking throughout Minneapolis and its art galleries. Actions at each location affected others and the story conclusion.

Minneapolis, MN
2014

“The Choosatron”

Creator / IF Tool Designer & Writer

Designed, Kickstarted (for \$75k), & manufactured this international, award-winning interactive storytelling platform.

Minneapolis, MN
2013 - 2014

WORK EXPERIENCE

Miami University

Armstrong Professor in College of Creative Arts

In addition to writing curriculum for / implementing a new game design major, created & supervised year long game design capstone for multiple, large student teams.

Oxford, OH
2016 - 2019

Clockwork Active Media

Senior Mobile Developer / R&D

Managed mobile team resources, client interactions, & led team development. Prototyped & implemented large scale installations, including for the [Cosmopolitan Casino](#) in Las Vegas.

Minneapolis, MN
2010 - 2014

The Nerderly

Mobile Developer

Developed many native mobile applications for iOS and Android, designed interactive simulations using Actionscript 3

Bloomington, MN
2009 - 2010

Mural Ventures
